

## Infrastructure works to 110 units—Arborfield

### Project Facts

**Sector:** Infrastructure

**Our Role:** Sub Contractor

**Location:** Arborfield

**Client:** Crest Nicholson

**Project Value:** £6 m

**Duration:** 20 months

### Overview:

This project is for the groundworks and infrastructure to 110 houses at the former MOD Base at Arborfield.

### Scope of Works:

We undertook the full build to DPC including CFA piled foundations, substructure blockwork and block and beam floors and issuing collateral warranties to the developer.

The aggressive build programme has entailed a workforce of some 50 operatives to undertake work on a number of different fronts at the same time.

As our extended remit we acted as principal contractor until the developer was able to take over.
