

ARBORFIELD

Project Facts

Sector: Infrastructure

Our Role: Sub Contractor

Location: Arborfield

Client: Crest Nicholson

Project Value: £21m

Duration: 20 months

Overview:

This project is for the groundworks and infrastructure to 110 houses at the former MOD Base at Arborfield.

Scope of Works:

We undertook the full build to DPC including CFA piled foundations, substructure blockwork and block and beam floors and issuing collateral warranties to the developer.

The aggressive build programme has entailed a workforce of some 50 operatives to undertake work on a number of different fronts at the same time.

As our extended remit we acted as principal contractor until the developer was able to take over.
