Location: Eastleigh

Client: Highwood Group

Project Value: £3.75m

Duration: 12 months

Overview:

Three new major junctions off Stoneham Lane into the new housing development together with associated infrastructure, roads and drainage.

Scope of Works:

North Stoneham Park is a substantial parcel of land consisting of 120 acres set on the outskirts of Eastleigh.

The scheme, a landmark mixed-use residential project, will deliver 1100 new homes to meet the shortfall in this area's housing requirements. The development will include: accommodation for the elderly, a school, community hub, leisure and sporting facilities and landscaped public spaces. Our works are to construct the adaptable roads, drainage and street lighting that service the scheme. This includes a major new roundabout onto Stoneham way that requires extensive third party involvement.
