

Hackbridge

SECTOR:

Housing & Infrastructure

OUR ROLE:

Sub Contractor

LOCATION:

Hackbridge, London

CLIENT:

Redrow

PROJECT VALUE:

£2.5m

DURATION:

18 months

OVERVIEW:

The project is for the groundworks and Infrastructure for 51 units on a brownfield site.

SCOPE OF WORKS:

We undertook the traditional groundworks package of foundations, drains, drainage and Hard Landscaping. The Project was complicated by a very high water table, residual contamination and strict planning constraints.

This has been a particularly challenging scheme which has required innovative dewatering methods to protect the local watercourse from residual contamination.
