

# Stratford Water Polo Park

## SECTOR:

Car Park

## OUR ROLE:

Package Contractor

## LOCATION:

Stratford

## CLIENT:

Buckingham Group

## PROJECT VALUE:

£375,000

## DURATION:

5 weeks

## OVERVIEW:

The Stratford Water Polo Park involved the conversion of 7000m<sup>2</sup> storage yard to a multi-use surfaced car park with surface drainage water drainage in five weeks.

## SCOPE OF WORKS:

Natta utilised a laser levelling bulldozer together with 360° excavators to carry out the cut to fill earthworks and sub-base placement. Our Tarmac Subcontractor Spaceoak laid 700 tonnes of tarmac a day to meet the programme.

The works were handed over on time, on price, snag free to a very pleased client.

See next page for more

“Completing a job of this nature at speed with no snags has made the team very proud. For it to be ready in time for the Invictus Games gave added impetus at tricky times!”

**Matt Sainty**

COMMERCIAL DIRECTOR, NATTA
