

Worthy Down

SECTOR:

Civil Engineering,
Groundworks

OUR ROLE:

Sub Contractor

LOCATION:

Winchester

CLIENT:

Skanska UK

PROJECT VALUE:

£8m

DURATION:

2 years

OVERVIEW:

The project is for the provision of multiple new buildings to provide amalgamated training facilities from three previous bases.

SCOPE OF WORKS:

Our remit was to carry out foundations up to and including structural ground floors, drainage, extensive retaining walls, both sheet piled and reinforced concrete, drainage and hard landscaping.

The works required teams working on up to eight different buildings at the same time, all the while maintaining the operation of the existing base.
