

New Covent Garden Market

SECTOR:

Infrastructure & 278 Works

OUR ROLE:

Main Contractor

LOCATION:

London

CLIENT:

Vinci/St Modwen

PROJECT VALUE:

£5m

DURATION:

9 months

OVERVIEW:

Natta undertook this project at the prestigious New Covent Garden Market. The works included the construction of an access road to the Apex Site and a temporary footpath on Arch 42.

SCOPE OF WORKS:

The scope of works involved a new road, enabling works and footpath diversions to facilitate the construction of three tower blocks.

The New Covent Garden Market site featured a considerable interface with the market traders, their suppliers and the public. The new Northern Line Station sat next to our work zone within the existing railway arches and public roads bordering the site.

The works required an enormous amount of coordination with the stakeholders to keep all parties happy.
