

Burnham Grammar School

SECTOR:

Civil Engineering,
Groundworks

OUR ROLE:

Sub Contractor

LOCATION:

Slough

CLIENT:

Wates Group

PROJECT VALUE:

£1.9m

DURATION:

50 weeks

OVERVIEW:

This project, based at Burnham Grammar School, is the construction of a new build school, set over three-phases.

SCOPE OF WORKS:

The first phase was the installation of pile mats, ground beams, pile caps, upstands, 3,500 m² concrete floor slab, foul and stormwater drainage, including large soakaway, new services and external hardstandings to facilitate the construction of a new school.

Phase 2, was the external works prior to commencing phase 3. This phase consisted of the demolition of the existing old school with a new sports field being constructed in its place.
