

East West Greenspace, Horsham

SECTOR:

Civils, Greenspace

OUR ROLE:

Main Contractor

LOCATION:

North Horsham

CLIENT:

Legal & General
Strategic Land

PROJECT VALUE:

£3m

DURATION:

9 months

OVERVIEW:

Following our successful completion of extensive civil engineering works and improvements to Rusper Road and the A264 junction that provide the main infrastructure corridor into the North Horsham development. Natta were appointed to undertake the East West Greenspace project.

SCOPE OF WORKS:

The project included the creation of a public open space including play parks, paths, pedestrian bridges, open watercourses and hard and soft landscaping. The works included the excavation of 2 ponds and the building of retaining walls, timber bridges, resin footpaths, water cascades and lighting.

As part of the site preparation for the project, extensive earthworks were undertaken to an engineering specification which included extensive geo-technical testing. The remediation of historic contaminated soils relating to a farm operation were also undertaken at the same time.
