

Finchwood Park

SECTOR:

Civil Engineering,
Groundworks,
Infrastructure & 278
Works

OUR ROLE:

Sub Contractor

LOCATION:

Finchampstead

CLIENT:

Legal & General Homes

PROJECT VALUE:

£9m

DURATION:

April 2019 – August
2022

OVERVIEW:

This project is for the groundworks and infrastructure for 178 plots in Finchwood Park in Finchampstead on a Greenfield site.

SCOPE OF WORKS:

This 10 year development of 1,500 units saw Natta undertake the first phase of groundworks to 178 plots.

Our works included a mixture of mass concrete and piled foundations, drainage services, substructure brick and blockwork, floors, hard landscaping, adjusted roads, sewers and services. Bulk earthworks were also undertaken to the wider development. All groundworks were carried out to DPC and full externals were delivered to a high standard.

This was a high production site where our client was keen to produce units at speed which we were able to deliver.
