

Enderby

SECTOR:

Infrastructure & 278
Works, Modular

OUR ROLE:

Main Contractor

LOCATION:

Leicestershire

CLIENT:

Statera Energy Ltd

PROJECT VALUE:

£3m

DURATION:

7 months

OVERVIEW:

Natta were awarded the contract for a new Battery Storage Facility in Enderby for Statera Energy Limited.

SCOPE OF WORKS:

Our scope for the Enderby scheme was the full construction of the site, minus electricals.

As such, Natta completed the earthworks, drainage, services and cable troughs, as well as, the foundations for storage units, transformers, substations and grid connectors.

The project also included the fencing, hard and soft landscaping and the full build of a control room.

See next page for more

“We are excited to be involved in this new area of the renewable energy management industry and look forward to using our experience on this project in future schemes.”

Matt Sainty

COMMERCIAL DIRECTOR, NATTA
